Important Dates

IT'S NOT TOO LATE . . .

A-log offers to give our clients an Estimate of what your DMV fees should be for 2009 – FREE – during the month of December. We will need information from your Cab Card so have it with you when you call.

12/5/08 - November Trip Logs received by the 5th of December earn a \$5 discount.

12/25/08 - SEASONS GREETING!

12/20 – 1/31 – Watch for your 2009 Cab Cards, IFTA decals, and Oregon Weight Receipts to arrive in the mail. New Mexico is not issuing Tax ID Permits. They are just updating their computer with your renewal information and will be able to “see” it as you pass through their ports.

12/25 – 12/31 – We will not keep regular office hours between Christmas and New Years. We will check our messages and do our best to take care of any emergencies. Please plan ahead so that you have all you need from our office before the holiday season begins.

12/31/08 – Be sure all your renewal applications (DMV, UCRA, IFTA, New Mexico & Oregon) have been submitted and your fees paid in full! The penalties for being late are severe!!

IMPORTANT REGISTRATION INFORMATION!

Watch your mail for your billing summary from the DMV. All fee calculations are finalized in Sacramento and a statement will be sent to you showing how the actual fees were calculated. If the letters “CR” appear after the Balance Due – *you will get a REFUND!*

If there is a balance due to the DMV, pay it immediately so your Cab Cards can be released for next year.

Grace Periods

IFTA and the DMV have a two month grace period to allow time for renewals to be completed and 2009 operating permits be sent to you. This Grace Period is only granted to those whose 2008 credentials are in good standing and whose complete renewal applications and fees are submitted by December 31, 2008. Both agencies issue letters to document this grace period. The IFTA Grace Period Memorandum is enclosed with this newsletter. The DMV letter will be sent next month.

Keep them in your truck until your 2009 credentials arrive!

INCOME TAXES ARE JUST AROUND THE CORNER!

A-LOG is a “CTEC” certified tax preparer and has been helping our truckers for the past several years. The Economic Stimulus Act of 2008 has some extra help for anyone who put a new piece of equipment in service during 2008. If you have any questions please call our office for more information.
