### Attention – DMV Changes Ahead!!

We have been notified by the DMV that they will be closing their field offices for all IRP transactions. This means all IRP transactions – new fleets, adding vehicles or jurisdiction during the year, temps and renewals will have to go to Sacramento for processing.

This means you will have to allow 10-30 days for new credentials!!

Changes are also underway that will allow registration services to process IRP transactions in their own offices. These new web based services may take some time to get up and running and will cost additional money to set-up and administer.

Please bear with us as we find the quickest, best solution to this change.

### HEAVY HIGHWAY VEHICLE USE TAX RETURNS!

Annual Form 2290's are due beginning 7/1/2010

[www.2290Tax.com](http://www.2290Tax.com) is A-log's website – available to carrier's across the nation to e-file their Form 2290's. We have had great success running this site and have enjoyed helping not only our clients but other registration services help their clients prepare and file their annual tax returns!
